# Packages and Imports
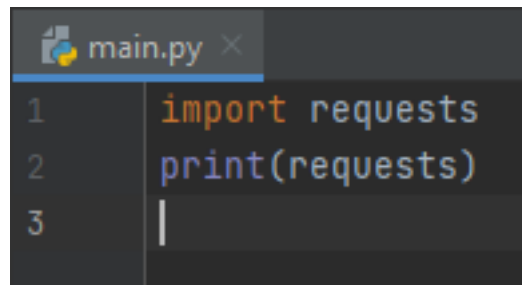

Complete the Following Tasks

Task 1 Answer

```
from Person import \
    Person as Fun
person = Fun()
print(person.first_name)
```
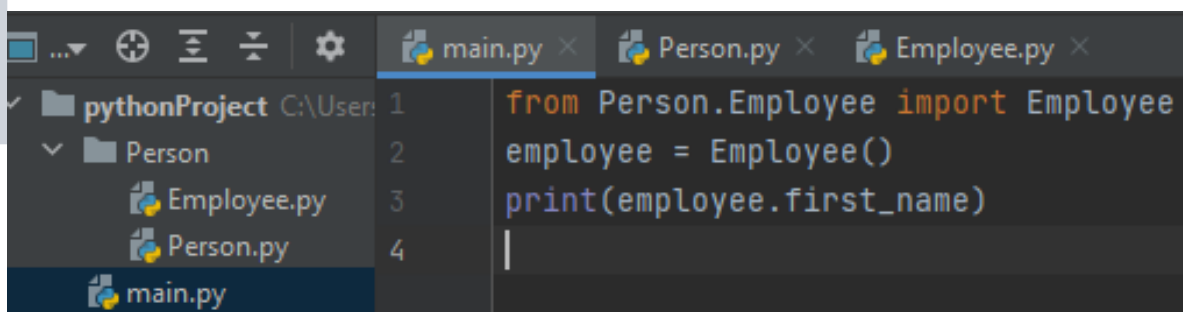

Task 2 Answer

```
import requests
print(requests)
```

Task 3 Answer

Sub directory with multiple files makes this a package example

```
from Person.Employee import Employee
employee = Employee()
print(employee.first_name)
```
